If I am licensed in the state of Ohio and my team hosts a neutral site competition in WV or PA, am I able to cover as certified athletic trainer for both my team and the visiting team?

Board, can Athletic Trainers perform dry needling in OH if there is evidence of appropriate training and one demonstrates knowledge? This question was asked in 2013 but I wanted a more current ruling. Thank you Chad Wolfe 2013 Correspondence 1. Dan Schultz, AT: Mr. Schultz asked the Section if athletic trainers can perform dry needling. Reply: There is nothing in the Ohio Athletic Trainers Practice Act that prohibits an athletic trainer from performing dry needling as part of the athletic training plan of care. However, the athletic trainer must produce evidence of appropriate training and demonstrate knowledge and competency in administering the dry needling prior to treating a client.

I have been asked to take a student athletic trainer for a clinical rotation. I am a physical therapist who is a credentialed CI through APTA and I am will to do this but we do not have an athletic trainer on staff at my facility. I was wondering what restrictions exist in regards to the amount of supervision needed and what the student athletic trainer is allowed to do in the PT setting when an athletic trainer is not on staff? Once licensed, I understand that an athletic trainer is considered "other licensed personnel" in the PT clinic but a student is not licensed yet. Any advice you can offer in regards to the appropriateness of a student athletic trainer doing a clinical rotation in a PT setting without a licensed athletic trainer to supervise would be appreciated. Thank you.

I have a question regarding ATs being able to administer Narcan (naloxone) if we have done the training. Are we covered for this if it is in our standing orders, even though our practice act only covers us for topical medications? My boss at Kettering Sports Medicine (Cathy Wells) would like something in writing from the board if we are allowed to do this before we add it to our standing orders and set up training for everyone. Thank you for your assistance!
