With this issue of Information Access, I would again like to welcome you to our latest newsletter to inform and update you on the activities of the Physical Therapy Section and your responsibilities in maintaining your physical therapy licenses. I encourage you to read all the information that the Section is making available to you to help you in your professional endeavors. You may be aware that the Section is now requiring you to list your continuing education and the Ohio approval numbers that correspond with the courses on all renewal applications. This requirement will continue and the Section encourages you to read the information regarding the renewal process presented in this newsletter. If you are audited, you will be required to submit additional documentation as well. Please read all renewal instructions very carefully to maintain your ability to practice. Incomplete renewal applications will not be reviewed and those with incomplete applications will not be renewed. The Physical Therapy Section continues to work very diligently to ensure that the renewal process runs as smooth as possible.

Urgent Renewal Message

The Physical Therapy Section will be taking a stronger stance toward licensees who fail to meet the deadline for renewal and continue to practice as a physical therapist or a physical therapist assistant once his/her license has expired.

The Physical Therapy Section will consider a license renewed only after a properly completed renewal application is received, processed and approved by the Section. If you have not properly completed the renewal process by January 31, 2003, your license will expire. If you continue to practice with an expired license you will be sanctioned by the Physical Therapy Section and that sanction will be a public record.

It is the responsibility of the physical therapist to ensure that the physical therapist assistant to whom they are delegating patient care has a current license. Likewise, it is the physical therapist assistant's responsibility to ensure that the physical therapist who is delegating and supervising patient care has a current license.

For those of you whose licenses will expire January 31, 2004, license renewals will be mailed to the address on file in the Board office no later than November 1, 2003. After January 31, 2004, any request for current license verification may be delayed because processing takes approximately two weeks. The licensee bears the risk of not having a verifiable license if the renewal application is submitted on, or after January 14, 2004.

Meeting Schedule for 2003/2004

September 11, 2003  January 15, 2004  May 20, 2004
October 9, 2003  February 26, 2004  June 24, 2004
November 6, 2003  April 8, 2004  August 12, 2004

All meetings are open to the public. If you are interested in attending, please contact the Board office at 800-871-1921 prior to the date of the meeting to verify the time and place of the meeting.
Enforcement Actions
September, 2002-July 2003

Cease and Desist Letters
Bally Total Fitness
David Bodi, D.C.
Claire Dwyer, P.T.
Traci Hamilton, D.C.
Glenn Kirkwood
Rodney Oberdorf, D.C

Consent Agreements
Frank Ginnetti, Jr., P.T.
Angela Prince, P.T.A.
Kevin Strayer, P.T.
Tracy Westbrook, P.T.A.

License Revocation
Dennis Cooke

Expired Licenses

As of July 22, 2003, the following licenses have expired. Please contact the Board office, as some of the licenses may have been reinstated since the publication date of this newsletter.

**Physical Therapists**

Renewal Alert

Continuing education requirements must be completed by December 31st in the year preceding the biennial renewal of your license. For example, persons whose license must be renewed by January 31, 2004, must complete their continuing education on, or before December 31, 2003.

Each continuing education course **MUST** have an Ohio approval number, which can be obtained by contacting the Ohio Physical Therapy Association (OPTA).

To allow the OPTA time to review and approve a course for continuing education credit, you must allow 4-6 weeks to obtain an Ohio approval number.

You are required to complete the CEU Reporting Form that comes with the license renewal application, whether you are audited or not. This is not a new requirement. The Physical Therapy Section, by law, has the legislative authority to require proof that the continuing education requirements have been met. Courses that are offered nationally or are well known do not automatically have an Ohio approval number. It is your responsibility, as a licensee, to contact the sponsor or visit the OPTA website to see if the course has been approved. Either the sponsor or attendee is able to complete an application for continuing education approval.

### Frequently Asked Questions

The Physical Therapy Section receives numerous letters requesting an interpretation of the laws and rules relating to the practice of physical therapy. These letters typically reflect current issues and problems experienced by licensees in the delivery of physical therapy services. The Physical Therapy Section responds only to those letters related to the Physical Therapy Practice Act.

The following is a list of frequently asked questions and general responses given by the Section. This is by no means a complete list. If you have questions related to physical therapy practice, please do not hesitate to forward them to the Physical Therapy Section.

---

**Can a physical therapist / physical therapist assistant remove sutures or staples?**

There is nothing in the Physical Therapy Practice Act that would prohibit a physical therapist from removing staples at the request of the physician referring the patient to your services. A physical therapist may delegate this to a physical therapist assistant, following the laws and rules related to the delegation of patient care. Both the physical therapist, whether performing the procedure or delegating it, and the physical therapist assistant must demonstrate competency in the performance of this task.

**We are going to an electronic system for documentation. When the physical therapist assistant enters the information and only one signature can be recorded, how do we co-sign the documentation?**

In accordance with Rule 4755-27-02 of the Ohio Administrative Code, a handwritten or electronic signature is acceptable by the physical therapist or physical therapist assistant. Electronic signature means any of the following attached to or associated with an electronic record by and individual to authenticate the record:

- (A) A code consisting of a combination of letters, numbers, characters or symbols that is adapted or executed by an individual as that individual's electronic signature; or
- (B) A computer generated signature code created for an individual; or
- (C) An electronic image of an individual's handwritten signature created by using a pen computer.

A copy of the individual's name, handwritten signature and electronic signature shall be on file with the use of the electronic signature at the location using the electronic signature.

The annotate or analog picture for the electronic signature by the author of the documents such as the physical therapist assistant, must also permit in such cases the co-signature; that is an annotate or analogue picture for the co-signature by the physical therapist. Should your computer system or program not permit such countersignature, then you need to make arrangements with your vendor for the computer system to be revised or improved to permit such countersignatures, annotate or analog picture. Should you not be capable of dual annotate or analogue picture, you then shall be required to have a hard copy that is co-signed by the physical therapist.
Do physical therapy practitioners have to transfer care of their patients every day in the medical record if they job share, are off for one day, or if a resource person works on the weekend and continues the care of the patient on Saturday?

Termination of care (transfer) does not include a physical therapist taking a regularly scheduled day off / job sharing or use of different staff to cover the weekends. It is expected that there is continuity of care for those patients and that the staff have a system of communication in place so that there is agreement on the course of care for that patient and everyone is working toward the same goals.

---

**Patient Abandonment**

Abandonment is the inappropriate termination of a physical therapist/patient relationship by the physical therapist. Generally, abandonment is alleged when the relationship is severed without reasonable notice at a time when there is still the necessity of continuing care. It is the position of the Physical Therapy Section that physical therapists have a legal and ethical obligation to make every effort to follow through with the plan of care established for any given patient. Principle 2.1 (E) of the American Physical Therapy Association’s Code of Ethics states, “In the event the physical therapist or patient terminates the physical therapist/patient relationship while the patient continues to need physical therapy services, the physical therapist should take steps to transfer the care of the patient to another provider.” A violation of the Code of Ethics is subject to sanction by the Physical Therapy Section under Section 4755.48 (5) of the Ohio Revised Code.

The issue of abandonment often arises when a facility replaces a physical therapist and when physical therapists move, are transferred, or sell their practice. The physical therapist has a responsibility to refer physical therapy patients elsewhere when they can no longer continue to treat a patient whom they have evaluated and/or set up a plan of care. A physical therapist should make every attempt to transfer their patients to eligible providers. The Section recommends informing patients that you can no longer offer care and provide patients with a list of eligible providers.

---

**Professional Liability**

Physical therapists and physical therapist assistants must accept responsibility for their actions and judgments, not corporate administrative policy. Any professional practice decision regarding the provision of physical therapy services rests solely with the physical therapist. These provisions are outlined in the Ohio Physical Therapy Practice Act. You can access the most current copy on the Board's website at: www.state.oh.us/pyt.

---

**Home Assessments**

A physical therapist assistant may go into the patient’s home, without the patient, to perform an environmental survey, (i.e. architectural barriers, floor plan of home, etc....) If the patient is going into his/her home environment and his / her function in the home is being assessed, this assessment must be performed by a physical therapist. A physical therapist assistant may continue an established treatment plan of functional activities in a non-clinical environment.
Complaints

If you wish to file a complaint, please write to:

The Physical Therapy Investigative Committee
77 South High, 16th Floor
Columbus, Ohio 43215-6108

You must include your name, address and telephone number. The Investigative Committee cannot respond to anonymous complaints. Your complaint will be held in confidence and your cooperation is valued.

Employer Verification

If you employ physical therapy practitioners, it is not only important to verify current licensure, but also to ensure that the licensee has not had disciplinary action taken against his/her license. Disciplinary actions are public record and may be accessed in two ways:

1) You may visit our agency website at www.state.oh.us/pyt and choose the “license verification” tab. Enter the name of the physical therapy practitioner you would like to check and look at the results under the “disciplinary action” section. If there has been no disciplinary action, it will be listed as “none”. If disciplinary action has been taken, you will be instructed to contact the Board office. You must submit a public records request to the Enforcement Division, in writing, in order to obtain additional information.

2) Another way to obtain information regarding disciplinary action is to have your employees perform a “self-query” through the Federal Department of Health and Human Services’ Healthcare Integrity Protection Data Bank (HIPDB) and provide you with the results. The “self-query” can be performed by accessing the HIPDB website at www.npdb-hipdb.com/queryat.html.

Did You Know?

As of August 27, 2003, the Occupational Therapy, Physical Therapy and Athletic Trainers Board has 17,703 licensed professionals.

- OT’s - 3,774
- OTA’s - 2,172
- PT’s - 6,091
- PTA’s - 4,086
- AT’s - 1,580

License Verification

The cost of verifying your license to another state board is $30.00. You can save time by forwarding a cashier’s check or money order (no personal checks please) to the Board office with your request. The check or money order must be made payable to the “Treasurer, State of Ohio”. Please be sure to enclose the appropriate forms to facilitate processing. Requests should be forwarded to the Board office at 77 South High Street, 16th Floor, Columbus, Ohio 43215-6108. Processing takes approximately three weeks.

Are You In Violation of the PT Law?

It is your responsibility to provide the Physical Therapy Section with changes regarding mailing address, name and/or employment address. Rule 4755-23-07 of the Ohio Administrative Code states, “A licensee shall notify the physical therapy section in writing of any change of name, place of employment or mailing address within thirty days after the change.” Please contact the Board office to update your personal information within this 30 day window.
Board Website

Please visit the Occupational Therapy, Physical Therapy and Athletic Trainers Board website at www.state.oh.us/pyt. The office staff has made numerous revisions to the website, including the addition of the most current copies of the practice acts (laws and rules) for all three Sections, applications, meeting minutes, new links and recent newsletters. Please use the website to obtain the following information: name/address change requests, duplicate wall certificate/pocket identification card requests, continuing education approval forms, application requests and meeting dates/locations.

---

Correspondence Regarding Physical Therapy Practice Questions

Professional concerns regarding the practice of physical therapy should be forwarded to the Physical Therapy Section in writing.

Please be sure to read the Physical Therapy Practice Act, meeting minutes and previous newsletters before forwarding any correspondence to the Physical Therapy Section. This information is available on our website at www.state.oh.us/pyt.

Correspondence must be received at least 10 days prior to the regularly scheduled Section meetings to be reviewed by the Section.

---

Spot Checks

To assure consumer protection, the enforcement staff conducts random/unannounced inspections of physical therapy personnel. These visits are a proactive approach to affirm compliance with Ohio laws and rules and include, but are not limited to: verifying the credentials of physical therapy personnel, reviewing patient documentation of physical therapy services, verifying proper supervision of unlicensed support personnel and checking the display of wall certificates. Spot check information is reviewed by the Physical Therapy Investigative Committee each month and a follow-up letter is sent to the licensee. The Committee clarifies any misinterpretation of the law, and makes necessary recommendations for change.

---

Board Staff

The Ohio Occupational Therapy, Physical Therapy and Athletic Trainers Board is responsible for regulating and licensing Ohio’s occupational and physical therapy practitioners and athletic trainers. When you contact the Board office, our highly dedicated and competent staff will assist you.

The Board’s staff consists of nine employees:

Lisa Foor, MSA
Enforcement Division Supervisor

Kimberly Stein
Investigator

Stephanie Youst
Executive Secretary

Gina Longstreth
Administrative Assistant

Mary Jane Langlois, Diane Moore and Thanh “Mai” N. Vo
Certification Licensing Examiners

Please contact any staff person for assistance at 800-871-1921 or (614) 466-3774.

---

Special Thank You's

The Physical Therapy Section would like to thank Carl Williams for his nine years of service to the physical therapy community. Mr. Williams has left the Board as Executive Director to pursue other interests. The Section wishes Carl the best of luck!

The Physical Therapy Section would also like to thank Anna Lou Goldblatt for her service to the Board. Anna Lou's term expired August 27, 2003 and she did not seek reappointment. The Section wishes Anna Lou the best of luck in all her future endeavors!
